

STUDENT SELECTION CRITERIA

Each participating school must select an equal number of boys and girls to attend LEAD as Delegates (either one boy and one girl or two boys and two girls depending on how many students your sponsoring Rotary Club authorizes) and one boy and one girl to be Alternates.

Since LEAD will occur in October, Delegate and Alternate selections must be completed by September 10. Delegates must complete the online application by September 15 and may need assistance if a computer is not available at home. Completed and signed Delegate Applications for both Delegates and Alternates must be collected and delivered to your sponsoring Rotary Club by September 20.

The LEAD Committee suggests that you consider the following qualifications when selecting Delegates and Alternates to participate in LEAD. Delegates and Alternates **must** exhibit all of these qualifications.

- The student has the ability to collaborate effectively with others.
- The student exhibits good study habits and is committed to academic success.

Delegates and Alternates should exhibit some or all of these qualifications.

- The student participates in school, community, and/or international service activities, exemplifying the Rotary ideal of “Service Above Self.”
- The student has past and/or current leadership experience.
- The student has the potential for future leadership responsibilities.

The LEAD Committee does not require that a student participant has achieved academic superiority. A student facing personal or environmental obstacles may work harder for academic achievement than another student “cruising” along at the top of the class. The LEAD Committee is pleased to have student participants that have overcome challenges and have surpassed academic expectations.
